Then consider representing LSM's Peristaltic Hose Pumps from the manufacturer of

## ***The Worlds Largest Peristaltic Hose Pump***

Offering

### **Double the Hose Life and Half the Power**

Compared to other similar pump design

- ✓ **13 Different Sizes** from 10mm to 200mm ( 1/2" to 8" )
- ✓ Flow rates to 300,000 l/hr ( 1322 GPM )
- ✓ No internal Rotors, Check valves, Balls or Cavities to clog, stick or block
- ✓ Hose is the **ONLY** wetted part in the pump
- ✓ Self Priming up to 9m H<sub>2</sub>O ( 29.5 feet ) static height
- ✓ Dry-run capability without any hose damage
- ✓ Reversible operation which allow instant pumping in both directions
- ✓ Seal-less design - - no seals or packing's that can wear and leak
- ✓ Many standard hose materials to comply with every application
- ✓ Handle Abrasive, Aggressive, Shear Sensitive or Contaminated fluids
- ✓ Move Slurries with extreme high content of solid matter
- ✓ *Will even pump live FISH* without any meat damage
- ✓ Pass **LARGE** solids without any damage to passing solids or the hose
- ✓ Have precise dosing capabilities and can be used as a metering pump
- ✓ Casings in Steel, Stainless Steel or with Special Coating

The superior LSM design displaces around double the volume of a similar pump and consume only  
**HALF the POWER**

LSM pumps use **SOFT ROLLERS** - - NOT SHOES - - for the hose compression. This means less wear and lower friction on the hose - - this, and our **UNIQUE** roller/hose adjustment provide you with more than  
**DOUBLE the HOSE LIFE**
